Tyre conditions, wheel changing tools, high lift jack operation (where applicable), dual battery system operation, four wheel drive system operation, camp equipment and general maintenance guidelines must be checked for each and every rental.

ONE WAY DROP OFF AND DELIVERY FEES

Vehicles can be collected and dropped off in most areas in Southern Africa for additional charge. It is recommended to use the official depots.

Risk of remote handovers – clients should be aware that there are very limited facilities in most smaller towns in Southern Africa and no option to replace or repair specialized equipment. This may affect the service, albeit exceptions which is why we recommend using our standard depo's where possible.

Please confirm all delivery charges at time of enquiry

DEPOT SURCHARGES

Delivery/depot surcharges may apply to certain areas and/or collection depots. Please enquire with your rental agent

USAGE

- The renter acknowledges that he/she is aware of the purpose for which the vehicle was designed, as well as all safety and maintenance procedures. The renter is responsible to look after and maintain the vehicle during use and to return the vehicle in good order, fair wear and tear accepted.
- In the event of the vehicle or any of its belongings being lost or damaged during the rental period, the renter shall be liable to cover the cost of replacement or repair and to make good on any shortages or damages to the vehicle. Standard Insurance Cover is included and will cover loss or damage due to theft and collision damages but not lost items or damages due to gross carelessness or negligence.
- Cross Border Travel – written authorization is required for any travel outside of South Africa.
- Checking the vehicle and signing the contract – it is recommended that the renter should check the vehicle thoroughly on handover to ensure the vehicle meets with their requirements and it is always beneficial to

recheck items like wheel changing tools and tyre condition. On signing the contract, the renter signs acceptance of the vehicle and equipment.

- The Renter is in control of the vehicle and is responsible to report any problems or avoid any driving obstacles they are not comfortable to cross or which may put the vehicle at risk. Additional care should be taken in remote areas where recoveries and repair are more difficult to affect. These areas carry higher risk and the renter assumes this risk when entering these areas. The Renter should be pro-active prior to entering these areas, do general checks on the vehicle and any noises, new rattles or possible fluid leaks investigated before heading into remote areas.

REPAIRS AND MECHANICAL FAILURES

Any mechanical repair or replacement related to fair wear and tear is covered by the supplier. Repairs of up to ZAR 2,000.00 can be affected without prior authorization. On higher amounts prior authorization is required from the supplier. Due to the vastness of the area where vehicles are mobile the renter is responsible to get the vehicle to the nearest workshop. Where not mobile, the vehicle should be towed to the nearest workshop for diagnosis.

Wherever possible please contact the supplier's Johannesburg Head Office if you pick up a technical issue. They must be aware of the problem in order to try and resolve but you are able to take the vehicle to any workshop and the costs will be refunded. If there are more serious technical issues it is imperative to contact the supplier before continuing.

In most cases vehicles are still covered under the new vehicle manufacturers warranty and their warranty conditions will apply where mechanical failures occur. It is important to remember that the supplier is not the manufacturer of the vehicle or equipment, but will do its utmost to select and offer the best and most recommended vehicles and equipment as well as ensure the vehicles are fully maintained and checked prior to departure.

Where serious mechanical failures occur due to standard wear and tear and which cannot be repaired timeously a replacement vehicle will be supplied within 24 hours of diagnosis. This relates to the countries of South Africa, Botswana, Namibia, Zimbabwe, Southern Mozambique and Southern Zambia. In countries further North replacement time is within 72 hours.

Inconvenience and time loss is not covered for mechanical failures which cannot be anticipated and were not apparent at the start of the rental.

Towing is covered for the countries of South Africa, Botswana, Namibia, Zimbabwe, Southern Mozambique and Southern Zambia. Further North towing is covered by the Renter.

Roadside assistance: the supplier offers contact numbers which are available at most times and will assist with any problem telephonically. Due to vastness of the Southern African region and the unknown logistics the supplier cannot provide immediate recoveries or technicians to all areas but will rely on local resources and will do their best to ensure speedy repair or recovery.

VEHICLE MAINTENANCE REQUIREMENTS

The vehicles are fully serviced and maintained as per manufacturers requirements and the supplier has introduced additional maintenance which is completed on vehicles.

The renter is responsible to maintain the vehicle during the rental period. This would include the standard check of tyre pressures, wheel alignment if necessary, oil and coolant levels and to be aware of any symptoms which may arise during the rental period. In addition, should the vehicle reach 10000kms during the rental period the renter is required to service the vehicle at their expense at a suitable workshop preferably associated to the vehicle manufacturer. Where an official dealer is not available other workshops may service the vehicle with our authorization. The 10000km service charges are for the renter and any other repairs related to standard wear and tear on the vehicle will be covered by the Supplier.

Should the Renter become aware of a potential problem with the vehicle it is their responsibility to make contact with the supplier or have it checked at the nearest workshop before proceeding further or into remote areas.

EQUIPMENT AND ACCESSORIES

The supplier does not manufacture the equipment and accessories but will make every effort to ensure equipment or accessories fitted or provided are of good quality. The supplier cannot warrant or guarantee their performance or reliability.

In the case of equipment issues or failures the hirer can repair or replace equipment at the cost of the supplier. Where the amount exceeds R2,000.00 prior authorization should be obtained. In the case of larger and more specialized items like the fridges and roof tents where these are not usable and are not able to be replaced the relevant item will be refunded from when it is reported faulty. This as long as it is due to fair wear and tear and not usage related or due to impact. The rental rates for fridges and roof tents are ZAR60.00 per day.

No tent is completely Mosquito proof so other precautions should be taken in Malaria areas. Zips which fail during the rental will not deem a tent unusable or validate the swap out of a tent unless otherwise agreed by the supplier.

Specialized equipment and equipment requests not within the standard vehicle configurations cannot be guaranteed in the offices outside of Windhoek and Johannesburg. In the case the supplier cannot provide certain equipment it is not deemed a breach of contract. The specific item the supplier is unable to supply will be refunded.

COLLISION DAMAGES & ACCIDENTS

All accidents must be reported to the local police within 24 hours.

Where collision damages render a vehicle unusable, a replacement vehicle can be supplied if available but all costs are for the expense of the renter.

The renter is responsible for the return of the damaged vehicle to the closest office.

No refund will be given for lost days due to collision damages. This is limited to a maximum of 21 days from date of incident.

Should the renter continue with a new replacement vehicle, then a new rental contract and insurance conditions will apply.

An administration fee of R550.00 is levied for the processing of any accident claims.

The exact insurance conditions and area of liability will also depend on the level of insurance selected.

ROAD RESTRICTIONS

The 4 Wheel Drive vehicles are allowed on all bitumen/tar and gravel roads as well as all recognized public 4x4 tracks in South Africa, Botswana, Namibia, Lesotho, Zimbabwe, Zambia, Mozambique, Tanzania, Swaziland and Malawi. Special permission is required for any other countries in Sub Saharan Africa.

The renter assumes all risk when travelling on very bad roads or in extremely remote areas. This may cause further delays in recovering the vehicle or offering a replacement vehicle. Roads like Van Zyl's pass in Namibia should be avoided and if the supplier is not able to recover the vehicle due to the position, the renter will be responsible for the delays. Cautious driving is essential in any remote area and on any poor roads.

If the supplier does not have access to an area, for instance on the desert tours in Namibia, then the renter is responsible for the salvaging of the vehicle to an area where the supplier does have access.

DESERT TOURS IN NAMIBIA

The Supplier does allow the vehicles to partake in these tours but under the following conditions:

- Driving up dunes and where there is no recognized 4WD track is at your own risk. Insurance does not cover any damages where the vehicle is used "off-road" or where there is no recognized track or road.
- These are areas with restricted access and it is the renter's responsibility to recover the vehicle to an area where the Supplier is able to access the vehicle. This applies to any mechanical or collision related incident. Any costs or delays to recover vehicles from these areas are for the renter's account.

CROSS BORDER SURCHARGES

A once off cross-border surcharge is applicable when leaving South African borders. This is a once off charge irrespective of how many borders are crossed.

A ZAR 800.00 fee is applicable for the countries of Botswana, Namibia, Zimbabwe, Zambia and Southern Mozambique (south of Zambesi River). If the vehicles are collected in a neighbouring country and no borders are crossed then the Cross Border Fee is not applicable, but only the delivery surcharges. Example if the vehicle is collected and dropped off in Namibia and no borders are crossed then no cross border fee is applicable.

A ZAR 3,000.00 fee is applicable for the countries of Northern Mozambique (north of Beira/the Zambesi River), Malawi, Tanzania, Uganda, and Kenya.

This includes electronic equipment like GPS, winch and satellite phones. The Supplier may use outside suppliers for this equipment and cannot warrant the accuracy or reliability of this equipment. This equipment should be checked by the renter on handover to ensure functional and should the equipment fail during the hire period it should be reported to the Supplier immediately, but they cannot guarantee replacement or repair and this will not constitute a breach of contract or affect the vehicle rental agreement. The Supplier will endeavour to refund the rental

of such equipment from the date reported or authorise replacement at the nearest town centre where this is feasible. Equipment will be tested by the supplier or manufacturer to establish reason for failure and grounds for refund.

CHANGE OF VEHICLE

If for reasons beyond the supplier's control, the reserved vehicle is not available, the Supplier reserves the right to substitute the vehicle with another vehicle in the same category or in a higher category. This shall not constitute a breach of contract or entitle the renter to a refund.
