USAGE

- The renter acknowledges that he/she is aware of the purpose for which the vehicle was designed, as well as all safety and maintenance procedures. The renter is responsible to look after and maintain the vehicle during use and to return the vehicle in good order, fair wear and tear accepted.
- In the event of the vehicle or any of its belongings being lost or damages during the rental period, the Renter shall be liable to cover the cost of replacement or repair and to make good on any shortages or damages to the vehicle. Standard Insurance Cover is included and will cover loss or damage due to theft and collision damages but not lost items or damages due to carelessness or negligence.
- Cross Border Travel – written authorization is required for any travel outside of South Africa.
Neither Drive South Africa nor the supplier of the vehicle is responsible for adhoc fines, levies or other extraordinary expenditure that may occur in countries outside of South Africa.
The Renter is responsible to acquire and ensure:
All vehicle travel documentation to countries outside of South Africa is valid for a minimum of 14 days after rental termination date – failure to do so will result in the respective country penalty being charged to Renter's credit card/account.
- Checking the vehicle and signing the contract – it is recommended that the Renter should check the vehicle thoroughly on handover to ensure the vehicle meets with their requirements and it is always beneficial to recheck items like wheel changing tools and tyre condition. On signing the contract, the Renter signs acceptance of the vehicle and equipment.

REPAIRS AND MECHANICAL FAILURES

Any mechanical repair or replacement related to fair wear and tear is covered by the supplier. Repairs of up to ZAR 3,000.00 can be effected without prior authorization. On higher amounts prior authorization is required from the Supplier. Due to the vastness of the area where vehicles are mobile the renter is responsible to get the vehicle to the nearest workshop. Where not mobile the vehicle should be towed to the nearest workshop for diagnosis.

In most cases vehicles are still covered under the new vehicle manufacturers warranty and their warranty conditions will apply where mechanical failures occur. It is important to remember that the supplier is *not the manufacturer of the vehicle or equipment but will do its utmost to select and offer the best and most recommended vehicles and equipment as well as ensure the vehicles are fully maintained and checked prior to departure.*

Where serious mechanical failures occur due to standard wear and tear and which cannot be repaired timeously a replacement vehicle will be supplied within 24 hours of diagnosis. This relates to the countries of South Africa, Botswana, Namibia, Zimbabwe, Southern Mozambique and Southern Zambia. In countries further North replacement time is within 72 hours.

Inconvenience and time lost is not covered for mechanical failures which cannot be anticipated.

Towing is covered for the countries of South Africa, Botswana, Namibia, Zimbabwe, Southern Mozambique and Southern Zambia. Further North towing is covered by the Renter.

A R30,000.00 refundable security deposit will be charged to the Renter's credit card on vehicle collection – no exceptions. The supplier will not be held responsible for currency fluctuations. NB: The Renter has the option to leave foreign currency in cash for return of the same currency.

The renter must fully refuel the vehicle no more than 10km radius from drop off point – the supplier reserves the right to confirm the fuel level by way of refill.

NB: These vehicles are fitted with Long Range tanks therefore the fuel gauge showing full does not constitute a full tank – the supplier will top up each vehicle on return.

An R800.00 cleaning fee is charged to the Renters account. This is a standard fee charged to all customers for cleaning the exterior and interior of the vehicle as well as the linen, crockery and cutlery. In the event that the vehicle is returned in an extremely dirty condition, it will be cleaned by a professional valet service and the cost of the valet will be charged to the Renter.

VEHICLE MAINTENANCE REQUIREMENTS

- The vehicles are fully serviced and maintained as per manufacturers requirements and the supplier has introduced additional maintenance which is completed on vehicles.
- The Renter is responsible to maintain the vehicle during the rental period. This would include the standard check of tyre pressures, wheel nuts, wheel alignment if necessary, oil and coolant levels and to be aware of any symptoms which may arise during the rental period. In addition should the vehicle reach 15,000 kilometres (10,000km for Land Cruiser) intervals during the rental period the Renter is required to service the vehicle at a suitable workshop associated to the vehicle manufacturer. Where an official dealer is not available other workshops may service the vehicle with prior authorization. The schedule service charges are for the Renter and any other repairs related to standard wear and tear on the vehicle will be covered by the supplier.
- These vehicles are under maintenance plan therefore the Renter will be reimbursed at rental reconciliation.

COLLISION DAMAGES & ACCIDENTS

- All accidents must be reported to the local police within 24 hours.
- Where collision damages render a vehicle unusable, a replacement vehicle can be supplied if available. All costs are for the Renter's account.
- The renter is responsible for the return of the damaged vehicle to the original office if outside of the borders of South Africa.
- No refund will be given for lost days due to collision damages.
- Should the Renter continue with a new replacement vehicle, then a new rental contract and insurance conditions will apply.
- The exact insurance conditions and area of liability will also depend on the level of insurance selected.
